

EXCO TECHNOLOGIES LIMITED MANAGEMENT INFORMATION CIRCULAR
--

SOLICITATION OF PROXIES

This management information circular is furnished in connection with the solicitation by the management of Exco Technologies Limited (the "Corporation") of proxies to be used at the annual meeting of shareholders of the Corporation to be held on Wednesday, January 27, 2010, at 4:30 p.m. (the "Meeting"), and at all adjournments thereof, for the purposes set forth in the accompanying Notice of Meeting. It is expected that the solicitation will be made primarily by mail but proxies may also be solicited personally or by telephone by regular employees of the Corporation. The shareholder materials are being sent to both registered and non-registered owners of the securities. If you are a non-registered owner, and the issuer or its agent has sent these materials directly to you, your name and address, and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf. The cost of solicitation of proxies will be borne by the Corporation.

APPOINTMENT AND REVOCATION OF PROXIES

The persons named in the accompanying form of proxy are directors of the Corporation. **A shareholder has the right to appoint a person to represent such shareholder at the Meeting other than the persons designated in the accompanying form of proxy.** Such right may be exercised by inserting in the space provided the name of the other person the shareholder wishes to appoint. Such other person need not be a shareholder of the Corporation.

To be valid, proxies must be deposited with the Corporation's registrar and transfer agent, Equity Transfer and Trust Company, 200 University Avenue, Suite 400, Toronto, Ontario, M5H 4H1, not later than 4:30 p.m. (Toronto time) on January 25, 2010, or with the Chair of the Meeting prior to the commencement of the Meeting.

A shareholder who has given a proxy has the power to revoke it as to any matter on which a vote shall not already have been cast pursuant to the authority conferred by such proxy and may do so (1) by completing and signing a proxy bearing a later date and depositing it as described above; (2) by depositing an instrument signed (in writing or by electronic signature) by such shareholder or by such shareholder's attorney authorized in writing at the registered office of the Corporation at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, at which the proxy is to be used or with the chair of the Meeting at the Meeting, or (3) in any other manner permitted by law.

VOTING OF PROXIES

The shares represented by the accompanying form of proxy will be voted or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for and, if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly. If no specification has been made with respect to any such matter, such shares will be voted by the management representatives for the election of directors, for the appointment of the auditor and the determination of its remuneration, each as described in this information circular.

The accompanying form of proxy confers discretionary authority upon the management representatives named therein with respect to amendments or variations to matters identified in the Notice of Meeting and other matters which may properly come before the Meeting. At the date of this information circular, the management of the Corporation knows of no such amendments, variations or other matters. If matters which are not known at the date hereof should properly come before the Meeting, the form of proxy will be voted on such matters in accordance with the best judgment of the person voting it.

VOTING BY NON-REGISTERED HOLDERS

Only registered shareholders or their duly appointed proxyholders are permitted to vote at the Meeting. Many shareholders of the Corporation are "non-registered" shareholders because the Common Shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the Common Shares. More particularly, a person is not a registered shareholder in respect of Common Shares which are held on behalf of that person (the "Non-Registered Holder") but which are registered either: (a) in the name of an intermediary (an "Intermediary") that the Non-Registered Holder deals with in respect of the Common Shares (Intermediaries include, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSP's, RRIF's, RESP's and similar plans); or (b) in the name of a clearing agency (such as CDS Clearing and Depository Services Inc.) of which the Intermediary is a participant. In accordance with the requirements of National Instrument 54-101, the Corporation has distributed copies of the Notice of Meeting, and this management information circular together with a form of proxy (collectively, the "Meeting Materials") to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward the Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, Intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders. Generally, Non-Registered Holders who have not waived the right to receive Meeting Materials will either:

- (a) be given a form of proxy which has already been signed by the Intermediary (typically by a facsimile stamped signature), which is restricted as to the number of shares beneficially owned by the Non-Registered Holder but which is otherwise not completed. Because the Intermediary has already signed the form of proxy, this form of proxy is not required to be signed by the Non-Registered Holder when submitting the proxy. In this case, the Non-Registered Holder who wishes to submit a proxy should otherwise

properly complete the form of proxy and deliver it as specified above under "Appointment and Revocation of Proxies"; or

- (b) more typically, be given a voting instruction form which is not signed by the Intermediary, and which, when properly completed and signed by the Non-Registered Holder and returned to the Intermediary or its service company, will constitute voting instructions which the Intermediary must follow. Typically, the voting instruction form will consist of a one page pre-printed form. Sometimes, instead of the one page pre-printed form, the voting instruction form will consist of a regular printed proxy form accompanied by a page of instructions which contains a removable label containing a bar-code and other information. **A Non-Registered Holder receiving a voting instruction form cannot use this form to vote the Common Shares held by such Non-Registered Holder directly at the Meeting. Instead, the voting instruction form must be completed and returned to the Intermediary or the service company in accordance with the instructions contained therein.**

In either case, the purpose of these procedures is to permit Non-Registered Holders to direct the voting of the Common Shares which they beneficially own. Should a Non-Registered Holder who receives one of the above forms wish to attend and vote at the Meeting in person, the Non-Registered Holder should strike out the names of the Management Proxyholders and insert the Non-Registered Holder's name in the blank space provided for that purpose. **Non-Registered Holders should carefully follow the instructions of their Intermediary, including those regarding when and where the proxy or proxy authorization form is to be delivered.**

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

As of the date hereof, the Corporation has outstanding 40,915,923 common shares. Each holder of record of a common share ("Common Share"), as of the close of business on December 11, 2009, (the "Record Date") will be given notice of the Meeting and will be entitled to one vote for each Common Share held as of the Record Date on all matters to come before the Meeting, or any adjournment thereof.

To the knowledge of the directors and officers of the Corporation, no person beneficially owns, controls or directs, directly or indirectly, more than 10% of the outstanding Common Shares except as hereafter set out. Corporations owned or controlled by Brian A. Robbins of which the beneficiaries are Brian A. Robbins, his wife and children, beneficially own 8,500,546 Common Shares. Brian A. Robbins and his wife also beneficially own an additional 800,612 Common Shares, which together with the Common Shares referred to in the immediately preceding sentence, represent approximately 22.7% of the issued and outstanding Common Shares. In addition, the Corporation has also been advised that Kernwood Limited, a private investment company controlled by Edward J. Kernaghan, holds 4,770,800 Common Shares, representing approximately 11.7% of all the issued and outstanding Common Shares.

ELECTION OF DIRECTORS

The articles of the Corporation provide for a minimum of 3 and a maximum of 15 directors and the Board of Directors is empowered to determine the number of directors from time to time.

The Board currently consists of 6 members and at the Board meeting held on December 7, 2009 the Board determined that the number of directors to be elected at this Meeting would be 7.

The persons named in the enclosed form of proxy intend to vote for the election of the nominees whose names are set forth below. Management does not contemplate that any of the nominees will be unable to serve as a director but, if that should occur for any reason prior to the Meeting, the persons named in the enclosed form of proxy reserve the right to vote for another nominee at their discretion. Each director elected will hold office until the next annual meeting or until his successor is elected or appointed if his office is earlier vacated.

The following summary sets forth the names of all persons proposed to be nominated for election as directors, all other major positions and offices with the Corporation now held by them, their principal occupations, their periods of service as directors of the Corporation and the number of Common Shares of the Corporation beneficially owned, directly or indirectly, or over which control or direction is exercised by each of them. All directors are residents of Ontario, Canada. Each of the nominees, except Mr. Magee, has been previously elected at a meeting of shareholders.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Discussion and Analysis is designed to explain the significant principles which underlie the Corporation's policies and procedures for the compensation of its executive officers, including information on the objectives of the Corporation's executive compensation strategy. Included in this section is a discussion of each element of compensation, why the Corporation has chosen to recognize each element, how the Corporation calculates the amount for each element and how each compensation element fits into the Corporation's overall compensation strategy.

The Board of Directors, on the recommendation of the Human Resources and Compensation Committee of the Corporation (the "HR&C Committee") determines on an annual basis the base compensation for the CEO of the Corporation based on internal deliberations following consultation with the HR&C Committee and other members of the Board. With respect to base salary, the HR&C Committee does not apply formal objectives or set formulae in order to determine base compensation but conducts a qualitative determination of the level of performance in regards to strategic objectives of the Corporation. With respect to cash bonus and Long Term Incentives for the CEO and business unit managers, rewards are based on objective formulae relating to the financial performance of their business units. The Board, upon

the recommendation of the HR&C Committee also determines on an annual basis the total compensation of the CFO. This determination takes into account the recommendation of the President and CEO and the HR&C Committees' views as to the broad scope of responsibilities of the Corporation's CFO and the HR&C Committee's subjective assessment of his impact on the Corporation's overall success.

The Corporation's executive compensation philosophy is to:

- (a) Provide a competitive level of base compensation and benefits that will attract and retain talented and committed executives; and
- (b) Reward executives by use of short term incentives (cash bonus) and long term incentives (stock options) for the achievement of consistent higher than average profitability.

In order to attract and retain a high level of executive talent, the HR&C Committee has historically targeted total executive compensation levels in the median range of automotive manufacturing and industrial companies, whose operational, corporate finance and other activities are considered comparable to those of the Corporation. This is not a rigid requirement and discretion exists to take into account trends and/or challenges in the automotive industry. The HR&C Committee has established this median range despite the fact that the global automotive power train and component sector in Canada is extremely complex and challenged and exceptionally competitive and that the Corporation must have superior talent in order to deal with these challenges and to accomplish its strategic objectives.

In furtherance of the compensation objectives outlined above, the Committee compares executive compensation levels with those of other North American auto companies. This benchmarking is done with respect to base salary and annual bonus. This process was most recently undertaken in 2007 with the assistance of Mercers. This provided guidance to the Committee on executive compensation and allowed the Committee to evaluate market compensation information and ensure that the compensation approach and structure is appropriate and reflects compensation trends in the market place. Regarding its compensation deliberations in respect of the 2010 fiscal year, the Committee determined that the current level of compensation was appropriate for the circumstances of the automotive industry and the position of the Corporation.

For 2009 the HR&C Committee quantified and reviewed all elements of the compensation of the Corporation's executives named in the Summary Compensation Table, below (the "Named Executive Officers" or "NEOs"). The Committee also quantified and reviewed the projected payouts to the Named Executive Officers and payouts resulting from their termination and under the Corporation's Share Option Plan and other payouts. The Committee reviewed all of this information to ensure that it had complete understanding of each element of the compensation arrangements in effect for the NEO's, including an understanding of the "total" current executive compensation including future commitments.

The HR&C Committee believes that the total compensation packages of the Corporation's executive officers are appropriate in light of the Corporation's overall performance during 2009 given the drastic upheavals and insolvencies experienced in the automotive sector during the year and the significant improvement in the Corporation's cash flow, working capital, debt level and overall balance sheet during the year. While the HR&C Committee considered the

Corporation's share price performance as a factor in its compensation determinations, including in comparison to peer companies, it recognizes that the Corporation's share price is heavily influenced by the fact that the entire automotive sector was 'out of favour' for the last several years owing to the distressed condition of the Corporation's major OEM customers and more recently owing to the collapse of consumer demand for automobiles and other industrial products.

Elements of Executive Compensation

Executive compensation for 2009 included four basic elements, along with a package of benefit plans designed to complement the compensation components described below. The following summarizes the Corporation's reasons for each element of compensation:

1. Base Salaries

Base salaries provide fixed compensation to executives. The Corporation pays base salaries that the HR&C Committee believes are competitive with salaries paid for similar positions and are based on the executives level of responsibility and ability to influence the performance of the Corporation and take into account that the Corporation does not offer a pension plan or retirement benefits of any kind. These salaries are reviewed by management and the HRC Committee annually.

2. Cash Bonus Program

The cash bonus program is a variable component of compensation and is designed to compensate business unit managers for the short term financial performance of the operations for which they are responsible. Accordingly, the cash bonus payable to business unit managers is based upon a percentage of the pre-tax profit of the relevant operation(s). The amount of the bonus increases as the percentage of pre-tax profit to sales increases. The cash bonus program varies in detail between segments and divisions to suit particular circumstances but is uniform in basic philosophy and design. The bonus is paid in cash or cash and grants of stock options in cases where the bonus for any individual exceeds \$50,000. See 'Long Term Incentive Program' below. The CFO receives a discretionary cash bonus as it is deemed inappropriate to link the CFO's bonus to profitability.

The annual bonus program of the Chief Executive Officer is calculated as 3% of the adjusted consolidated pre-tax profit of the Corporation. The adjustment to pre tax profit is in the form of a capital charge. The capital charge consists of the Corporation's percentage cost of borrowing multiplied by the prior year-end shareholders' equity.

The Board retains discretion to award cash bonuses in addition to the requirements of the cash bonus program in keeping with its philosophy of ultimate control over executive compensation and the need, from time to time, to deal with exceptional circumstances.

3. Long Term Incentive Program

Long term incentives for NEO's consist of share options which are also a variable component of compensation. Where the cash bonus payable to business unit managers or the CEO exceeds \$50,000, the entitled individual is required to accept, in lieu of cash, stock options equal to one-

quarter of the cash bonus entitlement exceeding \$50,000. These options are 10-year stock options granted at the market price at the time of grant. The Corporation also retains the right to grant discretionary options with 5 year duration. This discretion is used from time to time to provide additional long term incentives to business unit managers, the CEO and the CFO.

These share options vest at the rate of 20% per year and act as an inducement for the recipients to remain in the employ of the Corporation and make business decisions that will contribute to the Corporation's long term share price appreciation.

4. Personal Benefits

The Corporation maintains competitive group benefit plans for all NEOs including provision of life insurance, accidental death and dismemberment insurance, short term disability income, long term disability income and health and dental coverage. Benefits under these plans do not differ from those extended to other management employees. Group benefits cease on the NEO's retirement or termination. From time to time the Corporation provides other forms of compensation that are common in the automotive industry such as providing company cars and club memberships to NEOs.

Each of the compensation elements above are generally designed to accomplish one or both of the Corporation's two goals: 1) attraction and retention of key talent, and 2) alignment of compensation with Corporation performance, which includes achievement of consistent higher than average profitability.

1. Attraction and Retention of Key Talent

The compensation package meets the goal of attracting and retaining key talent in a highly competitive automotive manufacturing environment through the following elements:

- A competitive total compensation program, including base salary, cash bonus, long term incentives that are competitive with similar opportunities offered in the marketplace for executive talent; and
- Ten-year share option grants with five-year vesting encourage long tenure with Corporation.

2. Alignment of Compensation with Corporation Performance

The compensation package aligns individual compensation with the Corporation's operating and financial performance because:

- The base compensation and personal benefits are sufficient to retain competent executive management, and
- The cash bonus and share option awards for business unit managers and the CEO incent and motivate them to improve the Corporation's operating and financial performance, namely, the Corporation's pre tax profit as a percent of sales. As this ratio improves the Corporation's gross margin, earnings, EPS and ultimately the share price should improve as well.

As noted above, the Committee targets total compensation at the mid range of comparable market practices. Various elements of total compensation are managed so that the total package provides the potential to add up to the approximate midpoint of the equivalent position range at target performance levels. Within total compensation, in 2009, the Committee sought to balance the various components with a view to retain talent in order to achieve short term and long term objectives, as well as offering attractive compensation in respect of the Corporation's situation. Besides base salary and personal benefits all other compensation is at-risk, which means that all the cash bonus and long term incentive is at-risk and tied to the Corporation's performance for all NEOs.

1. Base Salaries

In setting salaries of the Named Executive Officers, the Committee reviewed automotive and general industry benchmark data for the Chief Executive officer. For the other Named Executive Officers it consults with the Chief Executive Officer regarding individual performance. Based on the foregoing review, as well as consideration of individual performance, tenure and experience, the performance of the Corporation overall, any retention concerns, the individual's historical compensation and input from other Board members, the Committee sets the base salaries for the Named Executive Officers. The salaries that the Committee approved for the Named Executive Officers for 2009 are shown in the salary column of the Summary Compensation Table.

2. Cash Bonus Awards

Cash bonus awards were determined in accordance with the formulae described above. Since only the Castool and Extrusion tooling business units achieved a pre tax profit Paul Robbins and Bonnie Cartwright were the only business unit managers to receive a cash bonus in 2009. The CEO did not receive a cash bonus. The CFO received a cash bonus which recognized the achievement of certain strategic objectives throughout the year which included:

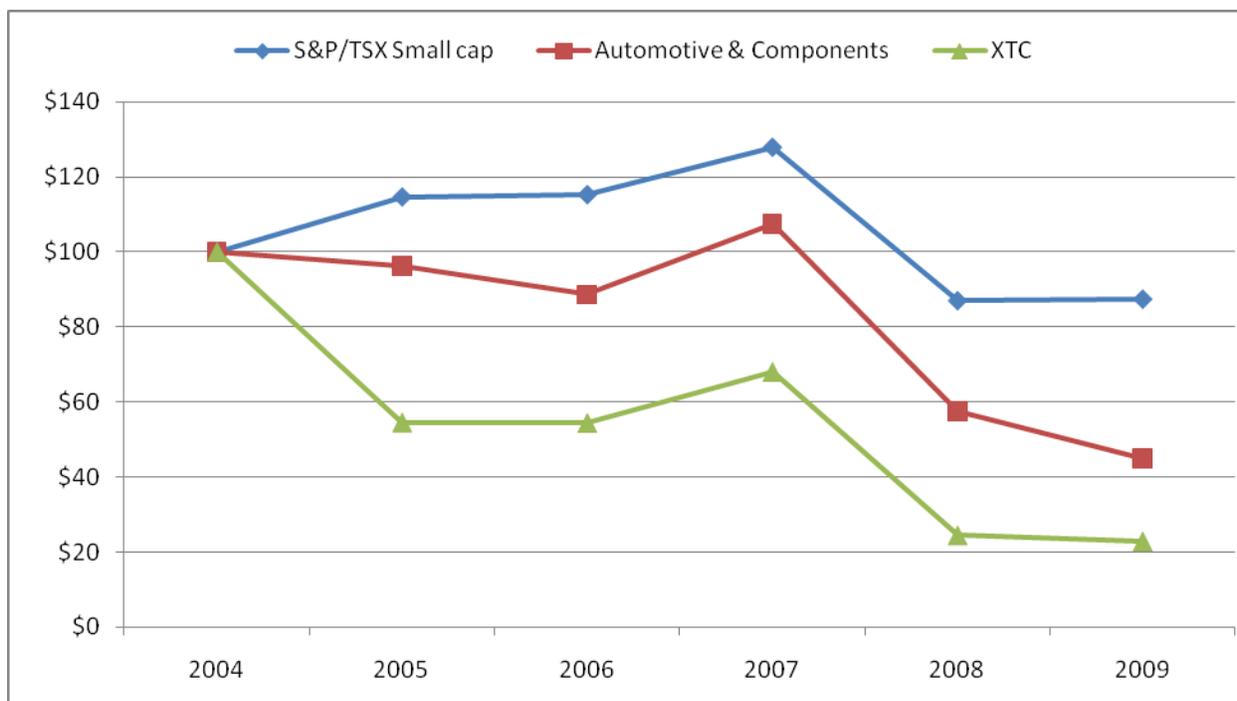

- Improving working capital by reducing account receivable, inventory and account payable,
- Ensuring internal control compliance, and
- Ensuring an orderly and timely migration to IFRS.

3. Long Term Incentive

Since neither the CEO nor any business unit manager was entitled to a cash bonus in excess of \$50,000 in 2009, no ten-year options were granted. The CFO received a discretionary grant of five-year options of 35,000 for achieving the objectives stated above. The grant dates and other share option information for grants to NEOs are shown in the table "Outstanding Option-Based Awards".

Executive Contracts

The Chief Financial Officer is the only Named Executive Officer with a written employment contract. This employment contract provides for a base salary of \$300,000 plus a discretionary bonus up to a maximum of 50% of the base salary calculated based primarily on the Company's earnings. The employment contract has no fixed term, however, provides for notice, or payment in lieu of notice, in the event of termination without cause in the amount of one month and accrued bonus for every year of service. As of the date of the circular this amount would be approximately \$150,000. No change of control provision exists.

COMPENSATION OF DIRECTORS

In fiscal 2009, each director who was not an employee of the Corporation (an "Eligible Director") was paid as remuneration for services as a director of the Corporation the amounts set forth below:

Annual Board Retainer	\$22,500 and \$10,000 DSU allocation
Annual Board Chair Retainer	\$15,000
Annual Audit Chair Retainer	\$7,500
Annual Governance & Nominating Committee Chair	\$5,000

(1) DSUs vest on the grant date but are not redeemable until the recipient ceases to be a Director.

The Board on January 26, 2005 amended the SOP to ensure that at no time, will the aggregate of stock options held by all independent Directors exceed 1% of the Corporation's issued and outstanding Common Shares. On November 18, 2005 the Board adopted a Deferred Share Unit Plan ("DSU Plan") for Independent Directors. The deferred share units will be redeemed by the Corporation in cash payable after the Independent Director departs from the Board. The DSU Plan has replaced the past practice of granting Independent Directors stock options under the SOP.

Indebtedness of Directors and Executive Officers

The indebtedness of Mr. Robbins to the Corporation is a short term loan evidenced by a promissory note maturing on the date on which the Corporation makes demand. The promissory note provides for a maximum loan amount of \$200,000. Interest is payable on the outstanding balance at a rate equal to the Corporation's cost of borrowing plus 1%. No security has been provided to the Corporation and no other understanding, agreement or intention to limit recourse exists.

Stock Option Plan

Pursuant to the terms of the Corporation's SOP, the Board of Directors is authorized to issue options to officers and employees to acquire common shares at such prices as the Board may determine, provided the price is more than the minimum price permitted by the Toronto Stock Exchange. Directors who are not officers are not eligible to receive stock options under the SOP. At present, the TSX requires the price to be no less than the weighted average price of the Corporation's Common Shares on the last 5 trading days before the day of the grant by the Board.

Options granted under the SOP must expire no later than 10 years after the date of grant and are not transferable or assignable other than by will or other testamentary instrument or the laws of succession. Options vest at the rate of 20% per annum. If a participant under the SOP is dismissed for cause, all unexercised options of the participant immediately terminate. If a participant under the SOP ceases to be a director, officer or employee of the Corporation or its subsidiaries, each option held by such participant will cease to be exercisable 30 days thereafter. If a participant under the SOP dies, the legal representative of the participant may exercise the participant's options for a period of 6 months following the date of the participant's death, but only up to the original option expiry date. The Board retains discretion to extend these time limits.

The SOP provides that the number of Common Shares reserved for issuance to any one person under the Plan may not exceed 5% of the outstanding Common Shares at the relevant time. It also provides that no option will be granted to non-employee Directors if the grant would result

in the number of shares reserved for issuance for all non-employee Directors collectively exceeding 1% of the number of issued and outstanding Common Shares at the proposed time of grant.

At the time the SOP was established, 820,177 Common Shares were reserved for issuance. Adjustments were made for a stock split in 1998 (3 for 2) and a stock dividend in 2003 (2 for 1). Additional Common Shares were reserved thereafter. Most recently, in January 2005 shareholders approved an amendment to the SOP to increase the number of Common Shares reserved thereunder by 760,000 to 6,080,118. The SOP provides that the Board may amend it with the prior approval of the TSX. The Corporation does not provide financial assistance in connection with the exercise of options under the SOP but retains the discretion to do so in appropriate circumstances.

At fiscal year-end, the Corporation had options outstanding under the SOP to purchase 1,929,429 Common Shares at exercise prices ranging from \$1.03 to \$7.60 per share, representing 4.7% of the Corporation's outstanding common shares. 1,003,937 Common Shares (representing 2.5% of outstanding Common Shares) are available for future grants under the SOP as set forth in the table below:

	Common Shares
Common Shares currently reserved	6,080,118
Common Shares previously issued on exercise of options	(3,146,752)
Common Shares reserved for issue pursuant to outstanding options	(1,929,429)
Common Shares available for future options	1,003,937

Employee Payroll Deduction Share Purchase Plan

The Corporation maintains an employee payroll deduction stock purchase plan ("ESP Plan"). Funds are deducted from participant wages and used to exercise options. If the options are not exercised by the participant, the Corporation returns the funds plus interest to the participant. The Board of Directors is authorized to issue options to acquire Common Shares at prices equal to the weighted average of trading prices of the Corporation's Common Shares on the TSX on the last five trading days before the date of grant.

Options granted under the ESP Plan must expire no later than 1 year after the date of grant and are not transferable or assignable. Options can only be exercised on a date determined by the Corporation, usually a year after the date of grant. If a participant under the ESP Plan is terminated for whatever reason, including death, the balance of accumulated funds will be immediately refunded together with interest and the option cancelled.

The ESP Plan provides that no insiders of the Corporation or employees with less than three months seniority may participate in the ESP Plan.

At the time the ESP Plan was established, 100,000 Common Shares were reserved for issuance. Adjustments were made for a stock split in 1998 (3 for 2) and a stock dividend in 2003 (2 for 1). Additional Common Shares were reserved thereafter. In January 2005, shareholders approved an amendment to the ESP Plan to increase the number of Common Shares reserved thereunder by 266,122 to 1,500,000. The ESP Plan provides that the Board

may amend it with the prior approval of the TSX. The Corporation does not provide financial assistance in connection with the exercise of options under the ESP Plan but retains the discretion to do so in appropriate circumstances.

At fiscal year-end, the Corporation had options outstanding under the ESP Plan to purchase 401,150 Common Shares at exercise price of \$1.29 per share, representing less than 1% (0.0099) of the Corporation's outstanding Common Shares. These were subsequently exercised and/or expired. The Corporation discontinued the ESP Plan and accordingly there are no options outstanding under this plan.

NORMAL COURSE ISSUER BID

On May 6, 2009, the TSX approved the Corporation's request to renew its normal course issuer bid. During the 2009 fiscal year, the Corporation purchased 282,100 Common Shares at an average price of \$1.88 per share. All Common Shares purchased under the bid have been cancelled. Since year-end, the Corporation has purchased no additional Common Shares. The normal course issuer bid expires on May 7, 2010 and may be renewed at that time for another year if the Board so determines and subject to the approval of the TSX.

MANAGEMENT CONTRACTS

The Corporation has entered into a management contract with WS Enterprises Inc. and William Schroers for management services relating to the Automotive Solutions segment. Both parties are domiciled in the State of Michigan, USA. The amount paid to WS Enterprises Inc. under this contract by the Corporation for the fiscal year ended September 30, 2009 was US\$250,000. There is no indebtedness owing to the Corporation by parties to this management contract. This contract also contains a long-term incentive plan which may in 2010 entitle the consultant to a payment (see Long Term Incentive Plan).

DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

The Corporation holds directors' and officers' liability insurance in the aggregate amount of US\$10,000,000 for annual premiums of approximately \$32,000. The Corporation will pay the first US\$100,000 of any claim made under the policy.

REPORT ON CORPORATE GOVERNANCE

All directors of the Corporation, other than Mr. Robbins, who is the President and CEO of the Corporation and who holds in excess of 10% of the Corporation's issued and outstanding Common Shares, are independent within the meaning of Section 1.4 of NI 52-110. Accordingly a majority of the directors, including the Chairman, are independent. A description of the Chairman's role is set out in Schedule A hereto. Several directors are presently directors of other public companies, however, no conflicts exist. Below are the public company directorships currently held by the Corporation's directors and proposed nominees for director.

Brian A. Robbins	Heroux-Devtek Inc. (TMX: HRX) Air Boss of America Corp. (TMX: BOS)
Stephen Rodgers	Zenn Motor Corporation (TMXV:ZNN)

During the 2009 Fiscal year seven Board meetings, including four regular quarterly meetings, one strategic planning meeting and two budget meetings were held. Independent directors convene *in camera* meetings at the end of each regular quarterly Board meeting. Mr. Robbins and other members of management are not in attendance at these *in camera* sessions. In Fiscal 2009 an *in camera* meeting also took place at the strategic planning Board meeting. The following table outlines the attendance, in person or by telephone, of directors at Board meetings in Fiscal 2009.

The Board has a written charter, the text of which is set forth in Schedule A hereto. The Corporation has also developed a position description for the Chairman and the President and Chief Executive Officer which are set forth in Schedule A.

Orientation of new directors is accomplished by ensuring that they attend at the Corporation's various production facilities and meet local management. Meetings with the Corporation's executives ensure that new directors are aware of the Corporation's policies, practises and major business issues. Given that the Corporation's directors are accomplished business executives who are generally engaged in the broader business community the Corporation does not have a formal continuous education policy. The Corporation does however make the Board and committees aware of emerging governance, legal and financial reporting issues that are relevant to the Corporation's affairs.

The Corporation has adopted a written code of conduct (“Code”) for directors and employees of the Corporation. All directors shall receive a copy of the Code each year. Employees of the Corporation can obtain a copy from management at their place of work. The Board relies primarily on feedback from management, the Corporation’s outside auditor and the whistleblower hotline in order to detect and deal with any infractions of the Code. A copy of the Code is also available on the SEDAR website. Directors who have any interest in any potential transaction or contract being considered by the Corporation are required to declare their interest in the matter and refrain from voting thereon.

The Corporation has 3 standing committees. These are the Audit Committee, the Human Resources and Compensation Committee and the Governance and Nominating Committee. These committees consist exclusively of independent directors. For Committee membership, please see “Election of Directors”. For further information regarding the composition and qualifications of the Audit Committee please see the Corporation’s 2009 Annual Information Form, section “Audit Committee Composition and Qualifications”.

The full Governance and Nominating Committee is responsible for reviewing, assessing and ultimately recommending to the Board suitable candidates for Board membership. The Chairman of the Board is ultimately responsible for initiating any Board changes. The HRC Committee is responsible for initiating, reviewing and recommending to the Board compensation arrangements for directors and officers. The Board is ultimately responsible for adopting these recommendations if it deems fit to do so.

The Board also has conducted regular assessments of its effectiveness and the effectiveness of individual directors through confidential surveys conducted by the HRC Committee.
